

MyChart Register for Delivery

Are you a Baptist Health patient with a unique medical record? If so, sign up for MyChart to register for your upcoming delivery. Check with your Baptist Health physician clinic or use the orange Sign Up Now button to access the orange Sign Up Online button to activate your MyChart account.

Once active in MyChart, look for the Register for Delivery option under the Visits menu.

From there select your anticipated delivery date and the hospital facility where you prefer delivery.

Verify and update your demographics, insurance information, as well as delivery questions. Once submitted, your expected delivery will be created. Upon arrival for delivery you'll sign paper work and confirm information is still correct.

If you have never had an admission with a Baptist Health facility or a Baptist Health physician clinic, please contact 501-202-2299 to have your medical record number (MRN) created and your MyChart account activated to allow you to register for your delivery.
